Note 1: A 'New Word' is a word that does not appear in BDB.

Note 2: The data in square brackets show in which corpora the word occurs (B = Bible, Si = Ben Sira, Q = Qumran, I = Inscriptions), and the total number of occurrences (including occurrences in emendations).

Note 5: The 'author' of a proposal for a New Word is the person I have been able to identify as the first proposer of the word. In a number of cases, there may well have been an earlier author responsible for the suggestion, who is unknown to me.
